Investigating Children's Language

The US City and the Natural Environment

Unit7

Leverage & the financial crisis

Einstein's Theory of Relativity for Dummies

How to use this book

Effective Academic Reading (for IELTS students) is designed for both self-study and use in classroom with a teacher. While focusing on four skills, it promotes the development of all language skills in a variety of ways. It functions principally as a comprehensive text book for students and learners who need to take IELTS examination.

This book is divided into different sections which consist of reading, speaking, writing and listening. In each section there are some drills that are samples of IELTS examination to give opportunity for more practice and enable learners and readers to assess how much they have learned.

The emphasis throughout the book is on skills. So, there is no grammar description in this book.
