WHAT I LEARN FROM TALENTS?

Talents is a series consisted of reading passages gathered from ESL websites and articles. The series suits beginner to intermediate learners of English. Each level of the series consisted of varied pre-reading and post-reading activities along with fun section at the end of each lesson.

Talents focuses on vocabularies needed in different context. Lessons are based on topics used in English institutes books and other popular educational topics.

Each level improves learners knowledge in different parts and skills of English such as grammar points, idioms, quotations, knowledge of world and writing tips that boosts learning, so we must call it an easy way through learning all it's needed.
