Preface

This book is designed for students who already have knowledge of English at the lowerintermediate level. The major goal of the book is to help learners expand their reservoir of vocabulary. Although the basic goal of this book is not to teach grammar, it does contain some grammatical explanations and exercises, mostly to help students reinforce their already existing knowledge of English structures, and to facilitate their comprehension of the materials. It includes an interesting variety of topics and materials that cover a wide range of vocabulary items. One special feature of the current book is that it emphasises the role of fun in learning English. In the selection of materials, attempt has been made to include interesting and stimulating topics to arouse the learners' interest. A special section of each lesson entitled "time to enjoy" is particularly designed to amuse the learners and make the study of the book less of a chore and more of an entertainment.

Contents
