Publisher's Foreword

In the days of red alert sirens, days of explosion thunders, days of Allah Akbar calls and unification, days of the young soldiers' perishment and their memories in our lanes and streets, days of our wounded compatriots under debris and rubbles that promised hope, days of hardship and children deprivation and blistering hands, hands that would endure the promise of making a better tomorrow.

The sirenless days, the productive days, the nostalgic voice of our parents encouraging to work and study harder and become somebody despite all difficulties and negligence. These were the old days.

Remembering that our universities were flourishing and becoming industrial and Iran was being rebuilt with all its might and power. The days that our friends were seeking success in different parts of the world. Indeed, we had an incredible hard path.

But in the name and help of God whom is the all mighty and just, today there is no sign of blistering hands. No more remembering the absence of our fellow men. We the Iranian patriates despite our hard path have a dream.

We proceeded with teaching as well as learning in the universities in both rich and deprived areas. Gradually we prepared prospective learning materials for the seeking minds including the gifted and less privileged students. Therefore, we decided to further it throughout the country against all difficulties and limitations.

In this regard, and with the purpose of educational development in all parts of the country particularly in deprived areas, Khoshkhan Publication with the assistance of some associates was established in Imam Sadegh University and was able to prepare and publish a number of valuable text books and therefore achieved a prestigious position in the publication of educational materials.

Days have passed but not only any difficulties and obstacles have not stopped or slowed us down but also it has made us stronger. We have set foot in exploring and preparing other educational books and materials in the fields of 1st and 2nd academic and educational films.

In the beginning our books were limited to a few specialized text books, but today after more than 10 years of efforts and with the assistance of a number of intellectuals we are proud to say that our products have gone beyond only a few text books and we have accomplished great achievements in all subjects in 1st and 2nd educational levels.

In this regards and with respect to overcoming other difficulties for our readers, Khoshkhan Publication have made an effort to upgrade and enhance the existing English language text book and have included it in the 10th. Grade level in order to support and teach our students and learners.

Hopefully with the purpose of realizing and understanding our new generations needs and obtained experiences through years of teaching, we hope we can provide the students with materials that have the least stress and worries. Therefore, provide better and more eager students so that a prosperous future can be achieved.

It is in order to express my gratitude to all those involved in producing this text book and to express my apologies for any discrepancies.

We are only too aware that our path still remains very hard but through hard work and perseverance we have complete faith in reaching a better and more prosperous future for our children and our sacred and beloved country.

Preface

So much has been said about the importance of the English language. If it was once just a requirement for the academic degrees, it's now the most important and powerful tool of communicating and bringing the people from around the world closer.

We, as teachers should nurture the desire of learning and using this tool in our students to not just get better English speakers out of them, but to make them whole as humans. And what's the ultimate goal of a teacher? To help the students reach their highest level of potential in the academic and also humanistic aspects of themselves.

Keeping these principles in mind and based on the official book of the Ministry of Education for 10th graders, we have tried to bring together the most practical course book suited for the students of this grade. Each part of the book is chosen with great care and utmost attention to the learning needs of the students (e.g. samples of Cambridge ESOL Exams). For heterogeneous classes, we've also prepared another level which is suitable for more advanced and fluent students.

Although the book is in complete harmony of the official English book of 10th graders, but it can function independently as a course book for any passionate English learner in our beloved country.

And last, but not least, we thank any dedicated teacher with deep respect and wish them the best in their journey!

Acknowledgment

The authors of the book would like to thank:

Mr. Davood Lozumi for his effective contribution to the team and granting several ideas for in-class tasks.

Mr. Mahmood Yazdani for his support.

Mr. Gholamreza Zakizade for his excellent cooperation in the process of organizing the book.

And finally, very special thanks to Mr. Hajizadeh, the manager of Khoshkhan Publications for all his appreciated help, encouragement and for his humility.
