Progress Toward ILI Examinations: Pre-Intermediate I is the fourth book in ILI series published to help learners with their preparation for ILI final exams and to provide them with supplementary exercises and practice tests.

In Pre-Intermediate series, a new part has been added to the books. This part contains a summary of all the grammatical points covered in Pre-Intermediate books, useful reading comprehension skills, and tips for improving vocabulary knowledge.

The second part of the book consists of eight thirty-item quizzes and two sixty-item final exams. All these tests have four sections of listening, grammar, vocabulary and reading comprehension.

It is highly recommended that learners take the quizzes during the term after the completion of each unit of Pre-Intermediate I book, and the two final exams close to the end of the term after a thorough study of all the materials taught in Pre-Intermediate I.

If used properly, it is hoped that the book can help learners evaluate their understanding of the instructional materials, find their problematic areas, and get well prepared for their final exam.
