First published 2018, 1000 copies

Price: 15000 Tomans

ISBN: 978-600-96159-2-6

#### Introduction

Having suggested Active Skills for Reading books to my students who were preparing to take the IELTS, TOEFL and PTE tests- internationally recognized tests- and heard the same old question. 'How can I make sure whether I have done the exercises which follow the passages correctly on not?', I decided to prepare this guide book to help both students and teachers using the books, which I think are amongst the best resources available to English language learners worldwide.

As the tips—both for *Vocabulary Learning* and those for *Fluent Reading*—mentioned at the beginning of each book are the best ones ever suggested by a specialist in the field of language learning, students are suggested to make a special effort to follow them carefully.
