Referee bias contributes to home advantage in English Premiership football	133
Keeping control: Refereeing the game	149
Special populations: The referee and assistant referee	177

Preface

Soccer is the most popular sport in the world. It is an activity with almost the most complexity and the actions are conducted almost constantly, at one time on one side of the soccer field and on the other side of the soccer field which needs the referee to keep up with players all the time in order to make the correct decisions.

Referees are a part of all level of the soccer games. They are required to be in a high level of physical capabilities. They should thoroughly know the rules of the game and keep up with play so as to apply the rules wisely.

The fine art of refereeing is the art of know-how of the management, when to stop the game and when to let it go. Reading this book let the referee be able to control the match and to recognize what is significant and what is not; what the players can accept and what they find intolerable; how to have a good relationship with the players, coaches and spectators.
