Introduction

Alphabet Book is a three-level series that makes the first years of learning English Alphabets motivating and fun. In these series the writing is very controlled and limited to the letters of the alphabet and simple words.

These series provide children with the tools to develop solid literacy and numeracy skills. The objective of Alphabet Books is to present the names and sounds of all the English letters so that children become familiar with the English alphabets.

About this book

First Alphabet Book is colorful, lively, and easy to use.

In First Alphabet Book, children will:

- * do activities which reinforce the left to right direction of English writing
- * do activities which develop fine motor control
- * learn the shapes of the lower case and capital forms for all letters of the alphabet
- * practice tracing the letters and numbers

First Alphabet Book consists of 10 units. Each unit has a one-page-per-lesson format, and each page/lesson has a specific role in the unit.

The first two pages of each unit contain activities which reinforce the left to right direction of English writing. The lively pictures of these two pages are motivating involving the activities which develop fine motor control. They provide two lessons of material.

The next pages of each unit focus on phonics and provide material for literacy development. These Lessons are devoted to introducing the capital and the lower case form of the alphabet. These pages contain a writing model for the English alphabet, showing the starting points and direction of the pen strokes for each letter. The letter shapes are presented initially using lively pictures which children will find both enjoyable and motivating. Plenty of space is provided for each letter. First Alphabet Book can be used by teachers with their classes or by parents at home with their children. It is ideal support material for the First Friends 1 alongside any other course at this level.

To the teachers and Parents:

- * Show the children how to trace the shape of the letters using the pencil.
- * Explain that they must follow the arrows in the numbered order.
- * Children practice tracing the letter; then they complete the dotted letters from left to right on the lines below.
- * Let them practice doing this on their own a number of times.
- * Watch them carefully to make sure that they follow the shape of the letters correctly.
- * See how your student is holding the pencil whilst tracing the patterns.
