Introduction

Khate Sefid English Handwriting 2 is designed for young English learners who know how to write English letters and numbers but need more practice with their handwriting. This book begins with a short review of Khate Sefid English Handwriting 1 and continues with 13 units that provide learners with sample sentences used as guides. Each unit is dedicated to a specific subject and new words and simple structures are given as samples. After every 3 units there is a two-page review of the previous units. It has been tried to choose topics, word and sentences that are most commonly used in English course books so that children learn new words and structures while practicing their handwriting. This book also tries to teach learners appropriate punctuation in different sentences.
