FOREWORD

In the name of God

The doors of science and knowledge are opened, if we try to look for the truth. So to get rid of ignorance, we must learn our lessons from the history of other nations. Man should travel around in order to find the power of Creator and the culture of other nations and tribes and therefore announce the truth of his experience.

Sistan and Baluchestan is a great part of Iran which holds a great civilization. Traveling to this province will prove the fact of its history and culture; you will touch and experience the

myth, legend and celebrities closely. If the capacities and culture and ancient history of this sunny land are looked at closely, then we'll be able to remove the negative attitudes and replace them with positive thinking.

We welcome you to our sunny land of Sistan and Baluchestan
