
Impact of Nanotechnology on Medical Science

Compiled by:

Abolfazl Akbarzadeh, PhD
Masoud Farshbaf Aghajani, MSc
Mehrdad Samadishadlou, MSc
Javad Malakootikhah, PhD
Ebrahim Mostafavi, MSc
Nahideh Asadi, MSc
Babak Negahdari, MD, PhD

Under supervision of

Prof. Soodabeh Davaran
Dr. Hamidreza Pazoki-Toroudi

Title and author name	: Impact of nanotechnology on medical science / compiled by: Abolfazl Akbarzadeh, Masoud Farshbaf, Mehrdad Samadishadlou, Javad Malakootikhah, Ebrahim Mostafavi, Nahideh Asadi, Babak Negahdari./under supervision of Soodabeh Davaran, Hamidreza Pazoki-Toroudi.
Publication details	: Tehran: Royan Pajouh, 1397 = 2019 m.
Appearance	: 274 p. Illustrated (colored part), color chart (22 × 29 pt).
ISBN	: 978-600-408-499-4
Cataloging status	: FIPA
Note	: English.
Note: Compiled by	: Abolfazl Akbarzadeh, Masoud Farshbaf, Mehrdad Samadishadlou, Javad Malakootikhah, Ebrahim Mostafavi, Nahideh Asadi, Babak Negahdari.
Transcription Title	: Impact ...
Subject	: Nanomedicine
Thread	: Nanomedicine
Subject	: Nanotechnology
Thread	: Nanotechnology
Subject	: Nanostructured materials - Medical expenses
Thread	: Nanostructured materials - Therapeutic use
Added ID	: Akbarzadeh, Abolfazl, 1352 -
Added ID	: Akbarzadeh, Abolfazl
Added ID	: Judges, Soudabeh, 1344 -
Added ID	: Davaran, Soudabeh
Added ID	: Pazoki, Hamid Reza
Congressional Ranking	: R857 / N 2 De 2 1397
Dewey classification	: 610/284
National Bibliographic Number:	5427596

Impact of nanotechnology on medical science

Abolfazl Akbarzadeh, PhD; Masoud Farshbaf Aghajani, MSc; Mehrdad Samadishadlou, MSc
 Javad Malakootikhah, PhD; Ebrahim Mostafavi, MSc; Nahideh Asadi, MSc; Babak Negahdari, MD, PhD
 Under supervision of :Prof. Soodabeh Davaran, Dr. Hamidreza Pazoki-Toroudi

Contents

Preface	9
Part I: Important Classes of Nanomaterials in Medicine.....	11
Chapter 1: Nanotechnology and its applications in cancer therapy	13
Chapter 2: Magnetic nanoparticles	33
Chapter 3: Gold nanoparticles	55
Chapter 4: Silver nanoparticles.....	71
Chapter 5: Bimetallic nanoparticles.....	87
Chapter 6: Graphene.....	95
Chapter 7: Carbon nanotubes.....	109
Chapter 8: Quantum dots	131
Chapter 9: Liposomes.....	155
Chapter 10: Dendrimers	175
Part II: Biomedical Nanomaterials in Practice.....	187
Chapter 11: Polymeric nanoparticles in tissue engineering	189
Chapter 12: Basics of nanobiosensors	213
Chapter 13: Nanotechnology in lab-on-a-chip techniques	231
Chapter 14: Nanotechnology and gene delivery	241
Chapter 15: Nanomaterials and their toxicities	253
Terminology	267
Color Atlas.....	269
