18	At the doctor's Office		25
19	Check Out		26
20	Goodbye		27

Welcome

Welcome to this exciting and practical course for people who need English for travel. This course has useful information to help you communicate basic needs in English. When I saw my friends and people not able to speak and understand English, I decided to solve this problem by writing a short book so that they can speak English easily on trips.

This book introduces a collection of 20 English dialogs for traveling, made up in accordance with a situational syllabus. It was created to cope with various situations that travelers would encounter overseas. It is based on around real-life situations, and along with the audio file, gives you everything you need for a trip to other countries.

The units contain class activities and the opportunity for individual practice. Every page is easy to use and learn from, and gives you important new language which you can read, listen to, practice and use. You will be able to make simple everyday conversations, order meals, make reservations, check in to a hotel, take a taxi, have meetings and much, much more!

You can access the book page by page, or flip into it by using the topic symbols to find the situation and words which you need most. There are some cultural files and some useful phrases at the end which can help you learn more about the topics. The goal of this part is to teach you English phrases (not just individual English words) that you can use in many different situations. The phrases selected for this book are typical expressions used by native speakers.

Sometimes I have included a small explanation about when to use the phrase or what exactly it means; also, some phrases are indicated as especially "formal" or "informal."

You can also download the audio files from our channel (@Englishdiamond) or websites.

Whether you need English for business trips, vacations or work with English speakers, this course is right for you!
