Preface

Today most people speak English when they meet foreigners. It has become the new international language. There are more people who speak English as a second language than people who speak English as a first language. There are many reasons why English has become so popular. One of them is that English has become the language of business. Another important reason is that it is the language which is mostly used in science and internet. It's important to have a language that the people of the earth have in common. Our world has become very global and we need to communicate with one another.

Easy English is a book aimed particularly at university students who are majoring in fields other than English and are supposed to strengthen their basic reading skills for academic purposes. It has two aims: Firstly, it has tried to develop students' reading comprehension capabilities through various stories, jokes, questions and comprehension exercises. Secondly, in this book the effort has been made to provide university students with different but essential topics of grammatical interests.

We welcome constructive suggestions for the improvements in later editions and we would be extremely pleased for comments and suggestions through the following e-mail address:
