Acknowledgments

Writing a book is no small challenge. There have been many people along the way who have contributed to the successful completion of this book. Bernard "Red" and Marilyn Burns, my parents, instilled in me a thirst for knowledge and a love of animals. Their foundation has brought me to where I am today. I wish my dad were here to witness this accomplishment. I know he is telling everyone about it in Heaven! Mom, this is for you!

Finding one's soul mate is a true gift from God. I am truly blessed to have been given the gift of Ellen Lowery, DVM, PhD, MBA, as my wife and best friend. You make my life complete and give me the courage to pursue all of my dreams. Thank you for your encouragement and support in this endeavor and for constantly supporting my desire to write this book! My "anam cara," thank you for being the love of my life!

Thank you to our children Tara, Matthew, and Sara for allowing me "quiet" time to work on this project. I love you all!

I would like to thank my coauthor Lori Renda-Francis, LVT, PhD, for her friendship and willingness to coauthor this textbook with me. We talked about this dream years ago, and it has finally come to fruition. We first met and bonded over pugs and haven't stopped talking since! May God continue to watch over you and the members of your family, two- and four-legged!

Thank you to the National Association of Veterinary Technicians in America (NAVTA) for the support to write this book and for the support NAVTA gives to the entire veterinary profession and all health-care team members.

Finally, thank you to all the pets, past and present, that have gifted our lives with your presence. To name them all would be a book in itself, but each of you have touched my life. I need to mention Sherman, Zane, Joey, Fluff and Nutta, Rocky, Tank, O'Malley, Pudge, and the reigning "best dog ever," Fribble, for bringing such joy to my life.

Kara M. Burns

It has been an honor and a privilege to have the opportunity to write a textbook for veterinary assistants. I can only hope that this book teaches and inspires them to become loving and caring professionals.

I have been very fortunate to have the support of friends, family, and colleagues throughout the writing of this textbook. These individuals have provided the assistance and encouragement necessary for me to successfully complete this book. To all of them, I express my sincere thanks.

I would like to thank my parents, Marilyn and Joe Renda, for always believing in me, encouraging me, and supporting my love for animals, and for allowing me to keep all the little critters that I snuck into the house. Mom's heartfelt encouraging words and Dad's strong work ethic and persistence taught me that working hard for things you want will be worth it in the end.

I would also like to thank my sister Shelley for her support and my sister Wendy for always being my biggest cheerleader and for her help proofing my chapters.

Most of all, I would like to thank my husband Steve and my children Brad, Lucas, and Libby for their incredible sacrifices to ensure I was successful in this endeavor. Steve, you are a great husband and wonderful father. Thank you for your love, dedication, support, and encouragement and for believing in me even when I did not believe in myself.

Thank you to all of the contributors of this book. Most importantly, thank you to my wonderful staff members, who always support me through all of my endeavors, and to my students, who continue to teach me as much as I teach them.

In addition, a very special thanks to my coauthor and good friend Lara Burns. It has been a true honor working with someone I admire and respect so much. The idea for this book came about because of the love that we share for veterinary technicians and veterinary assistants. I pray that we can inspire students to reach their goals.

Finally, I am grateful to God for His gracious blessings and guiding hands.

Lori Renda-Francis
