

زموئسازي پيپه زن

ي

مؤلف: حسن ساريان

درياسي شريف

Modaresanesharif.ac.ir

سروش‌نامه: سالاریان، حسین، ۱۳۵۱

عنوان و نام پدیدآور: آزمون‌سازی پیشرفته زبان دکتری

مشخصات نشر: تهران: مدرسان شریف، ۱۳۹۴.

مشخصات ظاهری: [۹]، ۳۱۰ ص: ۲۹۸، ۲۲ س م

شابک: ۹۷۸-۹۶۴-۱۱-۳۲۱۱-۰۰

وضعیت فهرست نویسی: فیهای مختصر

وضعیت فهرست نویسی: این مدرک در آدرس <http://opac.nhai.ir> قابل دسترسی است.

شماره کتابشناسی ملی: ۳۶۶۸۰۶۳

نام کتاب: آزمون‌سازی پیشرفته زبان دکتری

پدیدآورنده: حسین سالاریان

ناشر: انتشارات مدرسان شریف

قیراژه: ۱۰۰۰ نسخه

نویت چاپ: اول

چاپ و صحافی: مهاجر نو

قیمت: ۱۵،۵۰۰ تومان

شابک: ۹۷۸-۹۶۴-۱۱-۳۲۱۱-۰۰

هر گونه استفاده از مطالب این کتاب اعم از بازنویسی، خلاصه‌سازی، نقل مطالب آموزشی، استفاده از سوالات یا پاسخ‌ها، برداشت به صورت دست‌نویس، گپی، تکثیر و یا هر گونه چاپ سنتی و دیجیتالی، استفاده به صورت کتاب الکترونیکی، لوح فشرده، قرار دادن مطالب بر روی اینترنت و وب سایت‌ها و یا هر گونه شبکه کامپیوتری دیگر و به طور کل هر گونه استفاده‌ی اشخاص حقیقی و حقوقی در جهت منافع معنوی و مادی خود، بدون اجازه کتبی ناشر ممنوع و بر اساس بند (۵) ماده ۲۳ قانون حمایت از حقوق مؤلفان و مصنفان و قوانین مربوط به جرایم رایانه‌ای کشور قابل پیگیری در محاکم قضایی می‌باشد.

Contents

Title	Page Number
CHAPTER ONE	
((The Prevalence of Testing))	
Some Chronic Complaints about Testing	2
CHAPTER TWO	
((Measurement, Test and Evaluation))	
Measurement	6
Psychological assessment	8
Testing in Contrast to Assessment	9
Informal and formal assessment	11
Formative and summative assessment	11
Essential measurement qualities	12
Properties of measurement scales	12
Characteristics that limit measurement	13
Steps in measurement	15
Relevance of steps to the interpretation of test results	16
Performance- Based Assessment	18
Current Issues in Classroom Testing	18
Computer-Based Testing	19
Progress Check	20
Answer	21
CHAPTER THREE	
((Uses of Language Tests))	
Uses of Language Tests	22
Uses of language tests in educational programs	22
Research uses of language tests	24
Features for classifying different types of language test	25
Progress Check	26
Answer	27
CHAPTER FOUR	
((Testing in Language Programs))	
Criterion-referenced tests	29
Norm-Referenced Tests	29
Theoretical issues	30
Practical Issues	31
The fairness Issue	32
Logistical Issues	32
Item Analysis	32
Testing method	33
Reverse Engineering	33
Prototype	34
Field Testing	34
Progress Check	37
Answer	38

Contents

Title	Page Number
CHAPTER FIVE	
((Characteristics of Normal Distributions))	
Normal Distributions.....	39
Skewed Distributions.....	39
Assumptions of the Pearson- Product Moment Correlation.....	40
POTENTIAL PROBLEMS WITH CORRELATIONAL ANALYSIS.....	40
Domain Score Dependability.....	41
Progress Check.....	42
Answer.....	43
CHAPTER SIX	
((Communicative Language Ability (CLA)))	
Language proficiency and communicative competence.....	44
A theoretical framework of communicative language ability.....	44
Language competence.....	45
Populations of persons.....	46
Language functions.....	47
Ability to interpret cultural references and figures of speech.....	48
Canale's adaptations: Expanding the model.....	49
Progress Check.....	52
Answer.....	53
CHAPTER SEVEN	
((Test method))	
Factors affecting on test performance.....	55
A framework of test facets.....	55
Degree of contextualization.....	59
Type of information.....	60
Organizational characteristics.....	61
Restrictions on organizational characteristics.....	62
Relationship between input and response.....	63
Applications of this framework to language testing.....	64
Language test design.....	64
The formulating of hypotheses for language testing research.....	65
Progress Check.....	66
Answer.....	67
CHAPTER EIGHT	
((Reliability))	
Factors that affect language test scores.....	70
Classical true score measurement theory.....	71
Reliability as the correlation between parallel tests.....	71
Sources of error and approaches to estimating reliability.....	72
Reliability estimates based on item variances.....	72
Stability (test- retest- reliability).....	74
Equivalence (parallel forms reliability).....	75

Contents

Title	Page Number
Problems with the classical true score model	75
Generalizability theory	76
Universes of generalization and universes of measures	77
Populations of persons	77
Universe score	77
Generalizability coefficients	78
Standard error of measurement	79
Item Response Theory (IRT)	80
Item Characteristic Curves (ICC)	81
Ability score	82
Precision of measurement (Item Information Function in IRT)	82
Test information function (TIF)	83
Reliability of Criterion-Referenced Test Scores	83
Dependability of Domain Score Estimates	84
Criterion-Referenced Standard Error of Measurement	84
Cut-off Score	85
Classification of Errors	86
Estimating the dependability of mastery/ non mastery Classifi	86
Standard error of measurement in CR tests	86
The effects of test method	87
Enhancing Consistency in Assessment	88
Methods of Moderation	89
Progress Check	91
Answer	93
CHAPTER NINE ((Validation))	
Reliability and validity revisited	95
Validity as a unitary concept	96
Construct validation	98
Evidence supporting construct validity	99
Factor analysis	100
The multitrait –multimethod (MTMM) design	101
Analysis of the processes underlying test performance	101
Test usefulness	102
Test bias	102
The consequential or ethical basis of validity	103
Post Mortem: Face Validity	104
Cutting the Validity Cake	105
The validity cline	105
Pragmatic validity	106
Validity as a Unitary Concept	107
Validity and the Consequences of Test Use	108
Progress Check	110

Contents

Title	Page Number
Answer	112
CHAPTER TEN	
((Research Methodologies for Exploring the Validity of a Test))	
Criteria	114
A priori validation	114
Establishing context validity	115
Anastasi on content validity	115
Methods and Research Methodology Design Hypotheses	116
Establishing theory-based validity evidence	116
Theory-based validity	116
Basic descriptive statistics	117
Progress Check	118
Answer	119
CHAPTER ELEVEN	
((Arguments and Evidence in Test validation and Use))	
Argumentation as Solution	121
The Form of an Argument	122
Practical arguments	125
Theory-based inferences	125
Technical inferences	126
CHAPTER TWELVE	
((Wash back))	
The Wash back Hypothesis	129
CHAPTER THIRTEEN	
((Some persistent problems and future directions))	
Authentic language tests	131
Authenticity as 'real-life' language use	132
Proficiency as 'real-life' performance	132
Validity of 'direct' tests	132
Criticisms of the RL approach	132
Failure to distinguish ability from behavior	133
Inadequate basis for validation	133
Accommodations to the RL approach	133
Authenticity as interactive language use	134
Progress Check	135
Answer	136
CHAPTER FOURTEEN	
((The Item Characteristic Curve))	
Characteristics	137
Progress Check	142
Answer	143

((Item Characteristic Curve Models))	
The Logistic Function	144
The Rasch, or One-Parameter, Logistic Model.....	145
The Two-Parameter Model	145
The Three-Parameter Model	145
Negative Discrimination	145
Progress Check.....	147
Answer	148
CHAPTER SIXTEEN	
((Estimating Item Parameters))	
The Group Invariance of Item Parameters.....	150
Progress Check.....	152
Answer	153
CHAPTER SEVENTEEN	
((The Test Characteristic Curve))	
Characteristics.....	154
Progress Check.....	156
Answer	157
CHAPTER EIGHTEEN	
((Estimating an Examinee's Ability))	
Ability Estimation Procedures	158
Item Invariance of an Examinee's Ability Estimate	159
Progress Check.....	161
Answer	162
CHAPTER NINETEEN	
((The Information Function))	
Item Information Function	163
Test Information Function (TIF).....	163
Definition of Item Information	164
Progress Check.....	166
Answer	167
CHAPTER TWENTY	
((Test Calibration))	
The Test Calibration Process	168
The Metric Problem	169
Putting the Three Tests on a Common Ability Scale (Test Equating).....	169
Progress Check.....	171
Answer	172
CHAPTER TWENTY ONE	
((Specifying the Characteristics of a Test))	
Developing a Test From a Precalibrated Item Pool	173
Some Typical Testing Goals.....	174

Contents

Title	Page Number
Progress Check.....	176
Answer	177
CHAPTER TWENTY TWO ((Educational Assessment))	
Fitness for Purpose.....	178
Progress Check.....	183
Answer	184
CHAPTER TWENTY THREE ((Assessment and Learning))	
Traditional Models of Learning.....	185
Cognitive and Constructivist Models of Learning.....	185
Assessment for Learning.....	188
Progress Check.....	191
Answer	192
CHAPTER TWENTY FOUR ((Impact of testing))	
Measurement-Driven Instruction (MDI).....	193
The Impact of Testing on the Curriculum and Teaching.....	194
The Impact of Assessment on Motivation	196
Teaching to the Test: coaching	197
Test Score Pollution	198
Impact on the School System.....	198
Progress Check.....	201
Answer	202
CHAPTER TWENTY FIVE ((Performance Assessment))	
Validity in Performance Assessment.....	205
Reliability in Performance Assessment	206
Generalizability	207
Progress Check.....	212
Answer	213
CHAPTER TWENTY SIX ((Teacher Assessment and Formative Assessment))	
Teacher Assessment.....	214
Formative Assessment	215
Reliability and Validity in Teacher Assessment.....	218
Progress Check.....	221
Answer	222
CHAPTER TWENTY SEVEN ((Ethics and Equity))	
Consequential Validity.....	223
Equity/Fairness Issues.....	225
Ethical Test Preparation	227

Contents

Progress Check.....	228
Answer	229
CHAPTER TWENTY EIGHT	
((Limitations of Classical Measurement Models))	
Concepts in Generalizability Theory	232
Progress Check.....	233
Answer	234
CHAPTER TWENTY NINE	
((Concepts, Models, and Features))	
Basic Ideas	235
Assumptions.....	235
Popular Models in Item Response Theory.....	237
The Property of Invariance	239
Constructs and models	240
Progress Check.....	242
Answer	243
CHAPTER THIRTY	
((Ability and Item Parameter Estimation))	
Standard Errors of Item Parameter Estimates	245
Progress Check.....	247
Answer	248
CHAPTER THIRTY ONE	
((The Ability Scale))	
The Nature of the Ability Scale	249
Transformation of the 0-Scale.....	250
CHAPTER THIRTY TWO	
((Identification of Potentially Biased Test Items))	
IRT Methods for Detecting DIF.....	252
Classical Methods of Equating	255
Progress Check.....	257
Answer	258
CHAPTER THIRTY THREE	
((Computerized adaptive testing (CAT)))	
Promise of IRT.....	260
Adaptive item sequencing in testing environments	261
CHAPTER THIRTY FOUR	
((Concepts in Generalizability Theory))	
Generalizability Studies with Nested Facets.....	268
Formal Model: One-Facet Nested Design	268
Two-Facet Nested Designs	269
Progress Check.....	270
Answer	271
CHAPTER THIRTY FIVE
