Introduction

Holding the first International Conference on Lovers of Ahl ul-Bayt (AS) and the issue of Takfiris, an initiative launched by the World Assembly of Islamic Awakening, should be viewed as a first of its kind since the very beginning of Islam. With lovers of Ahl ul-Bayt in attendance, such gatherings could deepen the knowledge and insight of the followers of Ahl ul-Bayt about the ideological and etymological foundations of this school of thought while bolstering the strategic bonds between the followers.

This conference is being held at a time when deviant, violent, anti-human and anti-Islamic ideologies of Takfiri terrorist groups have actively sought to undermine and counter the genuine ideology of the Prophet Mohammad (PBUH) while presenting a cruel and violent image of the beloved Islam to the world.

Holding such meetings would undoubtedly highlight the distinctions between ideological and epistemological boundaries of the genuine, benevolent, and real Islam and those of the American, Satanic, and false versions of Islam so that the world could become familiar with the differences between these two representations of the religion. In fact, through these initiatives, the world would come to know that Islam is the religion of nobleness, freedom, humanity, wisdom, justice, spirituality and unity for all human being, a religion that seeks to elevate people from their low, earthly pleasures to the highest levels of excellence and spirituality.

As fierce enemies of Islam are seeking to depict a harsh image of the religion through their various plots, the strategists working for the United States and the International Zionism have also devised a pre-planned campaign to block the growth and advance of the real Islam and to prevent it from spreading its shining lights across the world. To this end, they have invented a new deviant group called the Islamic State of Iraq and Levant (ISIL) while also organizing other Takfiri terrorist groups to block the growing expansion of the benevolent Islam. Such a plot is meant to sow deviations in order to undermine the potentials of the Islamic world and to ruin its capabilities. Those pursuing such campaigns are, in fact, trying to ensure the security of the occupant regime of Israel and to ensure their own economic and political interests through sowing discord among the Muslims around the world.

The International Conference on Lovers Of Ahl ul-Bayt and the Issue of Takfiris is in fact an opportunity to inform all Muslims in more than 70 countries of the world about the objectives and strategies of the hegemonic powers and to make Muslims better understand such plots and know the challenges they face in the current world. That would help them devise solutions and strategies to neutralize the plots and to take more practical steps for the future of the Muslim world and the integrity and unity of the Islamic ummah.

To realize such a sensitive and important goal, a scheme was launched for the conference several months ago to have its papers on the six following categories.

1. Epistemology, principles and ideological thoughts of lover of Ahl ul-Bayt (AS)
2. History and civilization of Islamic denominations and founding the new Islamic civilization

3. Thoughts and ideas of high-profile Islamic thinkers and clerics in forming the united ummah and their role in countering the deviant narratives
4. Unity and integrity among Lovers of Ahl ul-Bayt (AS) and their role in forming the united Islamic ummah
5. Identifying challenges and threats facing Lovers of ahl ul-Bayt (AS) and the Muslim world
6. Strategies and solutions for creating unity and integrity among the lovers of Ahl ul-Bayt (AS) and how they can counter the enemies (global hegemony, international Zionist, reactionary campaign and Takfir)

The call for papers of the conference, which covered the above-mentioned categories, was then published in the media and the press and in the social networking websites across the world. Despite the relatively short period of time remaining until the deadline of the call, scholars and thinkers across the Muslim world embraced the opportunity and sent their valuable academic works to the scientific, strategic and political committee of the World Assembly of Islamic Awakening. The papers then went through a jury process in the committee's scientific committee and those that made it above 70 out of 100 were qualified to enter the conference. A group of qualified translators then translated the papers into English, Arabic and Persian to allow the committee to prepare the current collection as the proceedings of the conference. This collection of selected papers, which has been prepared in the form of books and academic magazines, seeks to spread and expand the thoughts and opinions of Islamic scholars about the rich culture of the Ahl ul-Bayt (AS).

We hope that the current conference, which is held under the slogan, "love of Ahl ul-Bayt (AS) Heralds Unity and Revival of the Islamic Civilization", could perform its mission and open new perspectives in front of the lovers of Ahl ul-Bayt (AS). We also call

on great scholars to bless us with their constructive viewpoints and evaluations about the current conference and help us deepen the academic and scientific richness of this conference and other initiatives carried out by the World Assembly of Islamic Awakening.

Dr. Abdollah Mobini Dehkordi

**Secretary for Academic, Strategic and Political Committee of the
International Conference on Lovers of Ahl ul-Bay' (A') and the
Issue of Takfiris**
