Preface

This book is intended for the English Learning students wishing to improve their knowledge in reading comprehension in socio-cultural issues. Each lesson is a multi-faceted unit dealing with multiple skills a student may need to learn. The bold vocabulary signifies the words of importance with their due phonetic aspects, and their role meanings as appear in the text.

To achieve the oral and written goals of the units the reader is advised to first, answer the question. The ving each lesson orally, and second, to give a summary of the lesson in writing using the words and phases and phases and phases and phases and phases.

The teacher wishing to cover the sixteen sessions designated by the university syllaborary opt to discriminate among the units that best single eight teaching objectives in each session. The CD accompanied may help the teacher better handle their senting, ourse classes.

Kh. A. Mofrad

(Prof. of the University of Applied Sciences and Technology, Unit 37)
