Here is the Million Dollar Question: "How can I improve my English as fast as possible?" And you will be surprised to find just how simple the answer really is. Learning English fast is simple but it certainly isn't easy. There is one single word that describes the secret to improving your English: HABITS. Yes, you've heard that right. If you want to learn English, you have to establish "English language habits". In a few moments you will get access to a tool that helps you develop the habits you need to improve your English constantly.

If you set aside 3 minutes a day and use the right tools and materials, you will be able to improve your knowledge of English grammar and build up your active vocabulary. All you need to do is take one English test a time.

With your new English Test Package you will be able to assess your knowledge of English phrases, idioms, expressions and grammar structures over and over again. Once you have identified your weak spots, you can then concentrate on those areas and become more confident in using English every day. Forget about cramming grammar rules or vocabulary words into your head. Instead, you will be absorbing bits and pieces of the English language almost without realizing it. Harness the power of your subconscious mind!

It contains 1,019 ESL/EFL exercises (10 questions per test plus answer keys) covering a wide variety of topics and grammatical points. But unlike the traditional English text books, your English Test Package provides you with a system that constantly monitors your learning progress and improves your English language skills. You will find it fun taking these unique multiple choice tests because with every question

you answer correctly your English improves. Some of the test questions you will find easy while others might contain new phrases and expressions. If you take at least one test per day, you will soon notice just how your English gets better. Each test comes with an answer key and your brain will automatically store the correct choice. You won't have to read through difficult grammar explanations or do boring exercises.

Here are the main features of your new Package and your benefits:

- **Learning English anywhere**

You can practice and test your English wherever you want (in the tram, in the doctor's waiting room, in a restaurant, at your friend's home, or wherever.) You can choose where and when you want to test and improve your English.

- **Three test formats**

You will get used to the three standard question types that frequently occur in English language exams and tests such as the TOEIC, TOEFL, the Cambridge Language Certificates or the IELTS (incomplete sentences, errors in sentences and expressions)

- **10.190(!) unique test questions**

You can create your own long term learning program and take several tests every day. That way you establish and maintain the habits you need to succeed in improving your English constantly.

- **Every test question comes with an answer key**

The key shows you which answer is correct and you will easily memorize these new phrases and expressions. If you take a test several times, your result will get better with every try until you get all the answers right. This way your subconscious mind memorizes new grammar patterns and vocabulary automatically. You don't have to learn any grammar rules!

- **Three test levels: beginner, intermediate, advanced**

You can start with the level you are most comfortable with and then move on to the next stage. See how fast you are making progress and get excited by your success!

- **Several topics are covered**

English grammar: pronouns, phrasal verbs, tenses, countable vs. uncountable nouns, modal verbs and a lot more

Business English: office matters, job applications, computer English, etc. You will be exposed to a wealth of authentic sample sentences that include a great variety of themes. That's how confident we are that your English Test Package is the right choice for you!
