Contents

Preface.....	xiii
--------------	------

Chapter 1: Brief History

Introduction	1
History of Transplantation in the World.....	4
History of Transplantation in Iran	7
Renal Transplantation.....	8
Liver Transplantation	13
Heart and Lung Transplantation	14
Pancreas Transplantation.....	14
Bone Marrow Transplantation.....	14
Corneal Transplantation	15
Other Types of Transplantation.....	16
References	17

Chapter 2: Global and National Results of Transplantation

Introduction	19
Renal transplantation.....	22
Global results.....	22
Transplantation results in Iran	23
Heart transplantation	25
Global results.....	25
Heart-Lung transplantation.....	26
Lung transplantation.....	26
Global results.....	27
Liver transplantation.....	27
Global results.....	28
Pancreas and islet cell transplantation	29
Pancreas transplantation	30
Global results.....	30
Islet cell transplantation.....	31
Global results.....	32
The future of islet cell transplantation	33

Bone marrow transplantation	33
Global results.....	34
Bone marrow transplantation in Iran	34
Corneal transplantation.....	35
The future of corneal transplantation.....	36
Transplantation of other organs and tissues.....	36
References:	37

Chapter 3: Brain Death

Introduction	43
The definition of brain death	45
A brain dead patient as an organ donor	47
The protocol of brain death confirmation in Iran	48
The prospects.....	51
References:	52

Chapter 4: Ethical Issues

Introduction	55
Basic questions.....	56
Schools of ethics.....	57
Religions' viewpoints.....	59
Islam's viewpoint	59
Christianity's viewpoint	60
Judaism's viewpoint	61
Zoroastrianism's viewpoint	62
Buddhism's viewpoint.....	62
Procurement of organs for transplantation	63
Classification of Transplantation.....	64
Living donor transplantation	65
Ethical fundamentals and general conditions of living donor transplantation.....	65
Living organ donor transplantation	67
Transplantation of a living donor's reparable organs	69
Living donor transplantation of lung, cornea, kidney and liver.....	71
Ethical problems of growing LOD in the world.....	72
Taking organs from an anencephalic neonate	74

Persistent Vegetative State	75
Cadaver donor transplantation.....	75
Viewpoints on cadaver donor transplantation	76
Methods of obtaining the consent of cadaver donors	77
Ethical problems of non-heart-beating organ donation	79
Brain death and ethical problems of organ transplantation	81
Financial relations of donors and recipients	83
Arguments against financial relation	84
Arguments for financial relation.....	86
Markets of transplantable organs and tissues	88
How to increase organ supply	88
Xenotransplantation.....	90
Historical background	90
Ethical problems of xenotransplantation	91
1-Animal rights.....	92
Islam's views on animal rights	93
2-The recipients health	94
3- Other ethical problems	96
Stem cells and cloning.....	97
What is cloning?.....	97
Ethical challenges.....	98
1- Dignity and value of the embryo.....	99
2- Safety and efficacy of human cloning.....	101
3- Assessing the harm- benefit ratio	102
4- Other ethical points and debates.....	102
Genetic engineering and organ transplantation	104
Allocation of organs and determining the recipient.....	104
Deciding on allocation of organs.....	105
Priority on the basis of medical reasons and necessities	106
Determining the recipient on the basis of social value	107
Utilitarianistic determination of social value.....	108
Priority on the basis of humanity or divine value.....	108
Problems of determining the recipient on the basis of social value.....	109
Determining the recipient based on egalitarianism.....	100
The role of random Selection	110
Other methods of determining the recipient	111
Donating organs to those who are to blame for their own disease	112

Donation of organs to criminals and offenders.....	113
Other Issues	113
Costs of transplantation.....	113
Psychological adverse effects due to graft rejection.....	116
Research on organ transplantation.....	117
Responsibilities of the health care system	117
Organ banks.....	118
Prospect of organ transplantation (medical ethics aspect).....	118
Ethical issues of organ transplantation in Iran.....	120
An Overview	120
Iran's Controlled Program of Renal Transplantation	120
Financial Relation between the Donor and the Recipient.....	123
Brain Death and Deceased Donation.....	126
Consent to Organ Donation	128
Conclusion and Comments.....	129
References:.....	131

Chapter 5: Legal Issues

Introduction	143
Laws concerning organ transplantation in different countries.....	144
Legislation on cadaver donor transplantation.....	144
Legislation on the living donation.....	145
Legal issues of organ transplantation in Iran.....	146
Legislation.....	147
The text of the bill ratified by the Parliament.....	148
Conclusion.....	151
Reference.....	152

Chapter 6: Religious Issues

Introduction	153
Amputation and removal of organs	154
Part one: Amputation during lifetime.....	155
The prohibitory viewpoint.....	155
The first reason: Prohibition of endangering one's life	155
The second reason: Unlawfulness of harming oneself	156

The third reason: unlawfulness of changing God's creation	157
The fourth reason: Unlawfulness of mutilating human body	157
The fifth reason: Humiliating a faithful human	158
The sixth reason: Amputation of organs is an evidence of injustice	158
The permissibility viewpoint	158
The first reason: Man's reign over himself	158
The second reason: The principle of entrusting a faithful man's affairs to himself	159
The third reason: Necessity of doing good	159
The fourth reason: Permissibility of doing what benefits others more than its harm for the doer	159
Fatwas of some religious authorities	159
Part two: Amputation of organs after death	160
A - Who gives the permission to remove organs of a dead person?	161
B - Reasons of unlawfulness of amputating a dead person's organs	163
C- Blood-money for amputation of bodily organs	163
D- Application of the blood-money	164
Fatwas of jurists	164
Selling organs	165
Fatwas of jurists	165
Transplantation of organs	165
The permissibility viewpoint	166
The prohibitory viewpoint	166
Fatwas of jurists	166
Other jurisprudential debates on organ transplantation	168
Xenotransplantation	168
The essentially clean animal	168
The essentially impure animal	168
Fatwas	168
Cloning	169
Other issues	170
Conclusion	170
Reference	172
Index	173
