PREFACE

I have developed this volume in order to capture the essence of true English learning for university students. It is my hope that, this will give some new insights to students with different fields of study at universities.

Many thanks to my dear colleague, Engineer H.A. Yousefian, who devoted many times consulting me in sketching out and preparing of final version, as well as Mrs. Faranak Rajaee who did her best for editing it.

Also, I appreciate the committee members of the Roozbeh University English group in which their excellent support encouraged me to provide the volume

My apologies to Board of Establishers of Roozbeh University, nice staff, students and all other people who shared their special visions toward me.

I hope that you will find the book useful and interesting and expect all to demonstrate to me their comments and sincere criticism about it.

Bijan Karimloo
