Heinle ELT, a part of Cengage Learning, and National Geographic have partnered to create English language learning materials which bring our world and its different cultures to life. Through the new range of titles created under this initiative, we are together changing the way the world learns English.

Founded in 1888 to "inspire people to care about the planet", the National Geographic Society is one of the world's largest nonprofit scientific and educational organizations. It reaches more than 325 million people in more than 34 languages through its magazines, books, TV, interactive media, maps, films, and music. Proceeds from these activities have funded more than 9,000 scientific, conservation, and educational projects around the world.

For more information on our National Geographic materials for learners of English, please visit elt.heinle.com/ng

Please also visit Nationalgeographic.com to learn more about how you can become involved with National Geographic.
