Preface:

Isfahan Nayf-E-Jahan: (Isfahan is half the world), goes a Persian saying—a cry of wonder, which sums up the emotion experienced by travelers to the Isfahan city (Golembz, 1974).

The structure of book is designed to prepare a plan for conservation of heritage areas of Isfahan city. By tracing the past and present records, this book addresses Isfahan urban conservation, for the immediate future we try to identify the land use pattern of historic urban area in frame work of traditional Islamic culture and find out the significance conservation of heritage areas surrounding the main city core and also concerned with urban heritage, particularly historical sites and monuments and their significance for conservation.
