Feedback Information

At Cisco Press, our goal is to create in-depth technical books of the highest quality and value. Each book is crafted with care and precision, undergoing rigorous development that involves the unique expertise of members from the professional technical community.

Readers' feedback is a natural continuation of this process. If you have any comments regarding how we could improve the quality of this book, or otherwise alter it to better suit your needs, you can contact us through e-mail at feedback@ciscopress.com. Please make sure to include the book title and ISBN in your message.

We greatly appreciate your assistance.

About the Authors

Jeremy D. Cioara, CCIE No. 11727, works in many facets of the Cisco networking realm. As an author, he has written multiple books for Cisco Press and Exam Cram. As an instructor, he teaches at Interface Technical Training (www.interface-tt.com) in Phoenix, Arizona. Likewise, Jeremy has recorded many E-Learning titles at CBT Nuggets (www.cbtnuggets.com). Finally, Jeremy is the CIO of AdTEC Networks and works as a network consultant, focusing on Cisco network and VoIP implementations. Jeremy also casually blogs about Cisco topics at Tekcert (www.tekcert.com) in his "free time." Thankfully, he is married to the Certified Best Wife in the World (CBWW), who helps him manage his time and priorities and prevents him from getting an enormous Cisco logo tattooed across his chest.

Michael Valentine has 15 years of experience in the IT field, specializing in network design and installation. Currently, he is a Cisco trainer with Skyline Advanced Technology Services and specializes in Cisco Unified Communications, CCNA, and CCNP classes. His accessible, humorous, and effective teaching style has drawn a fan base of Cisco for hundreds of students since he began teaching in 2002. Mike holds a Bachelor of Arts degree from the University of British Columbia and currently holds CCNA, CCDA, CCNP, CCVP, and CCSI No. 31461 certifications. Mike has developed courseware and labs for Cisco and its training partners. Mike is the co-author of *CCNA Exam Cram (Exam 640-802)*, Third Edition (Que 2008), authored the *CCNA Voice Quick Reference Guide*, and has served as technical editor and contributor on several Cisco Press titles.

About the Technical Reviewers

Brion S. Washington, CCNA, is a senior voice engineer consultant in Atlanta, GA. He has more than ten years of Cisco experience, with the last five years dedicated to VoIP; he has worked with all the Cisco VoIP products. Brion has done many large projects involving VoIP, from complete network design, implementation, and the last level of escalation. He is currently finishing up his CCVP.

John Swartz, CCIE No. 4426, is the founder of Boson Software and training, 3DSN, Purple Penguin and Inner Four. Currently focused on cloud technologies using the VBLOCK Infrastructure Platform by VCE.

He is also focused on mobile technology his company has published over 500 apps for the iPhone. John created the original Cisco Press CCNA Network simulator, the Boson Netsim, and numerous practice tests. He has been a Cisco instructor for 12 years, starting with basic courses and now teaching Unified Computing, Network switching and other data center technology. John lives in Florida with his wife and three kids.

Dedication

From Jeremy D. Cioara:

This book is dedicated to you. Yes...the person reading this *right now*. No, I'm not being cheesy, I'm serious! The only real way people are truly successful and fulfilled in this career is to love what they're doing. Because of that, I put much effort (within grammatical boundaries) into not just communicating technical mumbo jumbo—hey! Microsoft Word didn't correct that! Who knew “mumbo jumbo” was a real word?—but making it fun and interesting to read. I hope this book sparks something in you that blooms into an interesting, fun, and fulfilling career.

(In case you're curious, dictionary.com defines “mumbo jumbo” as *senseless or pretentious language, usually designed to obscure an issue, confuse a listener, or the like*. It also says that mumbo jumbo is a masked man who combats evil in the western Sudan. I don't think either of these was my intention...)

From Mike Valentine:

This book is dedicated to my wife Liana, without whose unfailing support, it might never have happened. You and me, love.

In memory of my Dad.

Acknowledgments

Jeremy D. Cioara: When you go see a movie, ever notice how the credits roll for about 5 minutes with hundreds of names? It's the same with this book. There are probably hundreds of names you'll never see that had some part in making this book possible. My thanks goes to all of them!

Personally, I give thanks to Jesus Christ who is...well, everything! Without Christ, my world of color quickly fades to a dull, boring grey. Thanks to my wife, who tirelessly homeschools our three kiddos and puts up with my countless Matrix analogies to explain anything under the sun. Finally, thanks to Interface Technical Training (www.interfaceit.com), CBTNuggets (www.cbtnuggets.com), and Pearson (www.pearson.com) for allowing me to communicate my love for all things networking to people everywhere.

Mike Valentine: In fear of forgetting someone, let me try to list all the people who helped make this book happen:

Brett Bartow: For asking, answering, and adapting. Thank you, sir.

Jeremy Cioara: For trusting me with all the hard stuff. Adding...can.

Dayna, Ginny, Chris, and all the unknown soldiers at Cisco Press: They tempered, refined, redrew, and otherwise helped create what you are holding. Professionals, all; I salute them.

Toby Sauer, Dave Schultz, and Dave Batenun: My colleagues at Skyline and, most importantly, my good friends; for their opinion, their consideration and support, and for making me a better instructor and author. Thank you, my friends. (Please go buy their books, too; you will not regret it.)

Andy de Maria: Thank you for your empathy, flexibility, and your trust.

Ed Misely: A good friend and terrifyingly capable technical resource, for his assistance with my labs.

My family: Thank you so much for your support, patience, your love, and your belief in me.

The readers and posters of the Cisco Learning Community: For your early input and support. Here it is, finally. I sincerely hope you enjoy it.

Contents at a Glance

Introduction xxi

Part I Voice Perspectives

- Chapter 1 Traditional Voice Versus Unified Voice 3
- Chapter 2 Understanding the Pieces of Cisco Unified Communications 27
- Chapter 3 Understanding the Cisco IP Phone Concepts and Registration 49

Part II Cisco Unified Communications Manager Express

- Chapter 4 Getting Familiar with CME Administration 69
- Chapter 5 Managing Endpoint and End Users with CME 81
- Chapter 6 Understanding the CME Dial-Plan 105
- Chapter 7 Configuring Cisco Unified CME Voice Productivity Features 171

Part III Cisco Unified Communications Manager

- Chapter 8 Administrator and End-User Interfaces 207
- Chapter 9 Managing Endpoints and End Users in CUCM 235
- Chapter 10 Understanding CUCM Dial-Plan Elements and Interactions 269
- Chapter 11 Enabling Telephony Features with CUCM 289
- Chapter 12 Enabling Mobility Features in CUCM 323

Part IV Voicemail and Presence Solutions

- Chapter 13 Voicemail Integration with Cisco Unity Connection 343
- Chapter 14 Enabling Cisco Unified Presence Support 377

Part V Voice Network Management and Troubleshooting

- Chapter 15 Common CME Management and Troubleshooting Issues 397
- Chapter 16 Management and Troubleshooting of Cisco Unified Communications Manager 415
- Chapter 17 Monitoring Cisco Unity Connection 439
- Chapter 18 Final Preparation 457

Introduction xxi

Part I Voice Perspectives

Chapter 1 Traditional Voice Versus Unified Voice 3

“Do I Know This Already?” Quiz 3

Foundation Topics 6

Where It All Began: Analog Connections 6

The Evolution: Digital Connections 9

Moving from Analog to Digital 9

Channel Associated Signaling 11

Common Channel Signaling 12

Understanding the PSTN 13

Pieces of the PSTN 13

Understanding PBX and Key Systems 14

Connections to and Between the PSTN 14

PSTN Numbering Plans 16

The New Yet Not-So-New Frontier: VoIP

VoIP: Why It Is a Big Deal for Businesses 17

The Process of Converting Voice to Data 18

Role of Digital Signal Processors 22

Understanding RTP and RTCP 23

Exam Preparation Tasks 25

Chapter 2 Understanding the Pieces of Cisco Unified Communications 27

“Do I Know This Already?” Quiz 27

Foundation Topics 30

Did Someone Say Unified? 30

Understanding Cisco Unified Communications Manager Express 31

CME Key Features 32

CME Interaction with Cisco IP Phones 32

Match Made in Heaven: CME and CUE 35

Understanding Cisco Unified Communications Manager 37

CUCM Key Features 37

CUCM Database Replication and Interacting with Cisco IP Phones 38

Understanding Cisco Unity Connection 41

Cisco Unity Connection Key Features 42

Cisco Unity Connection and CUCM Interaction 43

Chapter 11 Enabling Telephony Features with CUCM 289

"Do I Know This Already?" Quiz 289

Foundation Topics 292

Describe Extension Mobility in CUCM 292

Enable EM in CUCM 293

Step 1: Activate the EM Service 293

Step 2: Configure EM Service Parameters 293

Step 3: Add the EM Service 294

Step 4: Create Default Device Profiles 295

Step 5a: Create Device Profiles 295

Step 5b: Subscribe Device Profiles to the EM Service 296

Step 6: Associate Users with Device Profiles 297

Step 7a: Enable EM for Phones 298

Step 7b: Subscribe Phones to EM Service 299

Describe Telephony Features in CUCM 300

Call Coverage 300

Intercom 303

CUCM Native Presence 303

Enable Telephony Features in CUCM 306

Enabling Call Coverage 305

Configuring Intercom Features 314

Configure CUCM Native Presence 315

Exam Preparation Tasks 321

Chapter 12 Enabling Mobility Features in CUCM 323

"Do I Know This Already?" Quiz 323

Foundation Topics 326

Understanding CUCM Mobility Features 326

Describe Mobile Connect 326

Unified Mobility Architecture 327

Implementing Mobility Features in CUCM 329

Configuring Mobile Connect 329

Configuring MVA 336

Exam Preparation Tasks 341

Part IV Voicemail and Presence Solutions

Chapter 13 Voicemail Integration with Cisco Unity Connection 343

"Do I Know This Already?" Quiz 343

Foundation Topics 346

Describe Cisco Unity Connection 346

Overview of Cisco Unity Connection 346

Single-Site and Multisite Deployment Considerations 346

CUC Integration Overview 347

CUC Features 349

Describe Cisco Unity Connection Users and Mailboxes 353

User Templates 353

CUC End Users 355

User Creation Options 356

CUC Voicemail Boxes 357

Implement Cisco Unity Connection Users and Mailboxes 357

Configure End User Templates 357

Configure CUC End Users 365

Importing End Users into CUC 367

Managing the CUC Message Store 372

Exam Preparation Tasks 375

Chapter 14 Enabling Cisco Unified Presence Support 377

"Do I Know This Already?" Quiz 377
